Dahout's Digs

September 2020

Much was accomplished in August, in spite of COVID. We had a very successful rhizome sale at Yamagami's Nursery, followed by an always fun rhizome sale at Elaine Fischer's, followed by our annual potting party at my house, minus breakfast. We potted 100 tall bearded and 26 medians for next years' sales.

There will be a zoom Board Meeting, prior to our zoom General Meeting on Friday, September 4th at 6:30 pm. We will go over the preliminary budget and the calendar year for 2020-2021.

If you have not yet run Zoom, and would like to, please let me know and I will help you get set up. Here are some tips:

1. You need to locate the zoom controls. If you are on a computer, they are always arrayed around the edges. If you are on an iPad or iPhone, you may need to tap the screen to get the controls visible. They only stay up for a few seconds.
2. In the bottom left hand corner (or along the top on an iPad) you will see Mute/Unmute (a microphone icon) and Start Video/Stop Video (a camera icon). These are your local controls and they determine if others in the meeting can hear or see you. They are both toggles, meaning click it once and it changes state, click it again and you are back to where you started. So if you are currently muted and you click it, you become unmuted (you can be heard), click it again and you will become muted again.
3. If there is a red line through the microphone, you are currently muted.
4. If there is a red line through the camera, no one can see you. Your image is black and only shows your name to other attendees.
5. Along the bottom of the screen (or along the top on an iPad) is a Chat icon. This is a text based message board which exists only for this session. You can see what others are chatting about and you can send your own message

If you want to know who else is in the session, you can bring up the list by clicking "Participants" along the bottom of your controls. —Carol Dahout, CBRIS Co-President

September Program

2020 marks the 100 year anniversary of the American Iris Society. Join us this Friday, September 4, for a presentation on the AIS Centennial with very special guest, Jean Richter!

Jean's presentation entitled, 100 Years of the American Iris Society: Some History of Iris and the AIS, will look at the AIS in the 20th century, with particular attention to its founders and the iris they created.

Jean Richter has been growing and enjoying iris for the past 20 years. She is particularly interested in historic iris, especially the iris of Lloyd Austin. This interest led her to hold several offices in the Historic Iris Preservation Society (HIPS). She is also an AIS judge, president of the Sydney B. Mitchell Iris Society, and current RVP Representative to the AIS Board and Regional Vice President of AIS Region 14.

We are thrilled to have her join us this Friday, for an event full of history and insight you will not want to miss!

–Trang Bui, CBRIS Co-Vice President

September Culture

How many of you have your newly acquired irises planted? How many of you are redoing your iris beds? It is time to get busy if you still have rhizomes lying about. In our area you are okay to plant throughout the month of September. The rhizomes need at least six weeks of growth before cold weather sets in. (Yes, I did say cold weather! It will come again believe it or not.) You do need to work on those iris beds now. The most common mistakes made with planting rises is planting too deep or not giving them enough sun. The minimum amount is six hours a day. More is better.

1. Amend the clay soil with compost and a bit of even numbered fertilizer. Some gardeners add oyster shell, coarse sand, gypsum, or unsalted alpha pellets to their soil. Some add a small amount of superphosphate or a small amount of bone meal. We all have our little tricks and ideas. A minimum of compost and fertilizer will do just fine.
2. Dig planting holes about 18 inches apart. Build a small mound of soil in the center of the planting hole
3. Center the rhizome in the mound, roots down, and then bury the rhizome, leaving the top slightly exposed.
4. Firm the soil around the roots. Water thoroughly. Continue watering a few times a week until new leaves show growth. Once established the irises do not need regular watering.
5. Keep weed free.

Dry Creek Garden Irises

If you are a CBRIS member that ordered irises from Dry Creek, please pick up your order from Carol Dahout as soon as possible. Reminder – if you ordered the irises, they are yours because the club has paid for them and needs to be reimbursed. They are such a good deal!

Dry Creek Garden

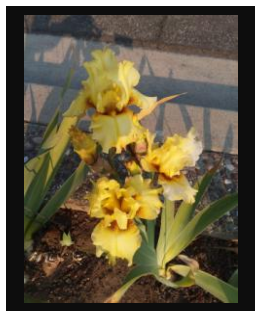

The following is a list of CBRIS members that helped out at the dig in Dry Creek Garden these past couple of weeks. Some of you had to contend with the sweltering heat and some with the smoke. We appreciate your time whether you helped for a couple of hours or several days. It is a wonderful garden. Sorry that I do not have photos of everyone.

Region 14 Fall Regional

The Fall Regional that was to be hosted by our club and held at the Elizabeth Gamble Garden in Palo Alto on Oct 3, 2020 has been cancelled. There will be a zoom meeting. Also, Andi Rivarola will be giving a judges training on Spurias. Details are still being worked out.

AIS National Convention

Registration is postponed until further notice. Due to COVID-19 shut down of many businesses and government offices in New Mexico, the Mesilla Valley Iris Society cannot come up with the costs of buses, lunches and other costs associated with the convention. Right now, large groups are prohibited by Governor Michelle Lujan Grisham. Hopefully, a vaccine will be found and be available early enough to still have the 2021 convention. The convention might be postponed until the following year. It is New Mexico's first time hosting the AIS national convention.
